GARFIELD
PREVENTION
COALITION

GARFIELD PREVENTION COALITION

EPIC, Empower Peers, Inspire Change, the youth substance use prevention group in Garfield, became concerned about their teenage peers reporting drinking at home during COVID-19 isolation. The stress of the situation was causing a relaxation of normal rules and habits around drinking allowing underage youth to drink more at home. This was noted by youth around the state of NJ. Nationally alcohol sales were 55% higher in March 2020 than March 2019 and April and May were each again 25% higher than March of this

year. This demonstrates an overall increase in alcohol usage. This is a concern for the underage consumer as the brain does not fully develop until the mid-20's, which can increase substance misuse. If a youth starts using substances at age 15 or younger, they are 7 times more likely to have a lifelong issue with substance misuse or addiction than someone who waits until age 21. For more information on the GPC or EPIC, email Kathi Viola at kviola@cafnsj.org.
